OBJECTIVE

Aspiring React developer committed to crafting seamless user interfaces and dynamic web applications. Eager to collaborate with experienced professionals to solve complex challenges and deliver impactful solutions that resonate with end-users.

EDUCATION

Bachelor of Technology, G.Pulla Reddy Engineering college Aug 2018 - Jun 2022
Electrical and Electronics Engineering.

Higher Secondary Education (10+2), Narayana junior college Jun 2016 - Mar 2018
M. P. C

Secondary Education (10) Jun 2015 - Apr 2016
Ravindhra Bharathi high School

SKILLS

| | |
|------------------------------|--|
| Programming Languages | Java, JavaScript, Sql, Opps Concept. |
| Web Development | MERN (MongoDB, Express.js, React.js, Node.js) stack, Html, Css, Tailwind.css, JWT . |
| Tools and Frame works | Git hub, Vs Code , Bootstrap ,Ms Office. |
| Soft Skills | Strong problem-solving, Effective communication skills, Time management, Adaptability. |

EXPERIENCE

Apprentice Aug 2022 - Feb 2023
J Spiders *Bengaluru, Karnataka*

- Acquired expertise in MERN (MongoDB, Express.js, React.js, Node.js) stack, completing projects like E-commerce website.
- Designing and developing full-stack web applications from scratch, incorporating best practices in database design, server-side logic, and client-side interactions.
- Implementing RESTful APIs for seamless communication between frontend and backend components.
- Developed proficiency in Java programming language, including Sql ,Html ,Css ,JavaScript,

PROJECTS

E-commerce Website. Developed a fully functional e-commerce website using the MERN (MongoDB, Express.js, React.js, Node.js) stack, incorporating responsive design principles and modern CSS frameworks.

Implemented server-side logic and RESTful APIs using Express.js, enabling seamless communication between the frontend and backend components.Leveraged Tailwind CSS to streamline the styling process and create responsive layouts that adapt to various screen sizes and devices.

Incorporated Bootstrap components and utilities to enhance UI consistency and usability across different pages and components.Demonstrated strong problem-solving skills in debugging code, optimizing performance, and implementing feature enhancements based on user feedback.

Key Technologies Used: MERN stack (MongoDB, Express.js, React.js, Node.js) Tailwind CSS, Bootstrap, RESTful APIs, MongoDB Atlas (or any other MongoDB hosting service), GitHub version control
